Sendr Preliminary Audit Results

We have received our preliminary audit results, below will be a quick breakdown of all warnings fixes.

CEN-01 (Doc. page 12)
"Centralized privileges" only apply to necessary variables, all contract dispute results remain decentralized.

LOG-01 (Doc. Page 13)
"Insufficient input validation" warnings fixed, see lines;
- 418
- 150
- 160
- 550

LOG-02 (Doc. Page 14)
"Potential front-running" - irrelevant

LOG-03 and LOG-04 (Doc. Page 15)
"Re-entrancy" and "Check-Effects-Interactions".
Additional (and in many of the cases listed; redundant) measures have been added, see lines;
- 273
- 566
- 397
- 736

LOG-05 (Doc. Page 16)
"Lack of function control checks"

releaseMilestone:
See lines 609-635, no changes needed, mistake on auditing firms end.

voidContract:
Another misunderstanding on auditing firms end,
No need to request payee permission to void a contract that has not yet been signed / initiated.
See lines 758-773

LOG-06 (Doc. Page 17)
"Unchecked return values"
See lines 530-532, return value is properly checked.

Remaining "Unknown" warnings are general and unpreventable.
